SUMMARY

Artificial Intelligence undergraduate at SLIIT with hands-on experience in full-stack web and mobile application development, machine learning, and AI-powered solutions. Proficient in Java, Python, JavaScript, React Native, Spring Boot, Node.js, MongoDB, TensorFlow, and Scikit-learn. Delivered 5+ academic and personal projects spanning learning management systems, healthcare platforms, AI chatbots, crop disease detection, and predictive analytics. Strong foundation in software engineering, OOP, data structures, algorithms, and database management. Seeking Software Engineering, Full-Stack Development, or AI/ML Internship opportunities.

PROJECTS

FEB 2026 – APR 2026

EduHub: Student-Tutor LMS Mobile Application

- Developed a full-stack mobile learning platform using React Native, Node.js, Express.js, and MongoDB.
- Implemented secure authentication, course management, and content-sharing functionalities.
- Integrated RESTful APIs for seamless frontend-backend communication.
- Designed responsive mobile interfaces to improve accessibility and user experience.

FEB 2026 – APR 2026

AgroLink: Web-Based Agriculture Community & Management System

- Engineered a web-based agriculture platform serving farmer collaboration and community engagement across multiple crop categories.
- Embedded an AI-powered chatbot delivering real-time agricultural guidance, reducing response time vs. manual lookup.
- Trained a crop disease detection model using TensorFlow and image classification, achieving measurable detection accuracy on test datasets.
- Applied ensemble and regularization techniques to improve disease prediction performance by iterative model tuning.

JUL 2025 – SEP 2025

SmileCare: Web-Based Dental Management System

- Constructed a clinic management system using Spring Boot and SQL Server, streamlining operations across 6 distinct user roles.
- Configured role-based access control (RBAC) with secure authentication, reducing unauthorized access risk.
- Delivered 4 core modules: appointment scheduling, patient management, diagnostics, and inventory management.
- Optimized database query performance through indexed stored procedures and normalized schema design.

JUL 2025 – SEP 2025

Loan Prediction System

- Designed a machine learning pipeline to predict loan approval outcomes using financial and demographic data from 1,000+ records.
- Benchmarked 6 ML algorithms; Random Forest achieved best performance at 91.05% accuracy and 0.91 F1-score.
- Executed data preprocessing pipeline including missing value handling, encoding, scaling, and SMOTE resampling.

- Conducted exploratory data analysis using correlation matrices, feature distributions, and ROC curves to guide feature selection.

FEB 2025 – APR 2025

Online Bookstore Management System

- Developed a Java-based bookstore management application using object-oriented programming principles.
- Implemented CRUD operations, file handling, custom linked lists, and Quick Sort algorithms.
- Managed inventory, customer records, and transaction processing.
- Applied encapsulation, inheritance, and modular software design practices.

EDUCATION

BSC (HONS) INFORMATION TECHNOLOGY – SPECIALIZATION IN ARTIFICIAL INTELLIGENCE

Sri Lanka Institute of Information Technology (SLIIT) | 2024 – Present

G.C.E A/L

Sri Subhuthi National School | 2021 – 2023

G.C.E O/L

Sri Subhuthi National School | 2019 – 2021

TECHNICAL SKILLS

Programming Languages	Java Python JavaScript SQL R
Frontend	HTML CSS React React Native
Backend	Spring Boot Node.js Express.js REST APIs
Databases	MongoDB SQL Server
AI & Machine Learning	Machine Learning TensorFlow Scikit-learn Pandas NumPy Data Preprocessing Feature Engineering Model Evaluation
Software Engineering	Object-Oriented Programming (OOP) Data Structures Algorithms SDLC Database Design
Tools & Platforms	Git GitHub Postman VS Code IntelliJ IDEA Google Colab

SOFT SKILLS

Collaborative Team Player | Technical Communication | Analytical Thinking | Cross-functional Adaptability | Deadline-driven Execution

CERTIFICATIONS

- **AI/ML Engineer Certificate - SLIIT**
