SUMMARY

Artificial Intelligence undergraduate at SLIIT with project experience in full-stack web and mobile development and machine learning. Built applications using React, React Native, Node.js, and Spring Boot, and implemented Python models with rigorous cross-validation. Seeking a Software Engineering or AI/ML internship to contribute to practical software and data-driven solutions.

PROJECTS

JUL 2026 - SEP 2026
Telecom Customer Churn Prediction System

Group project | Individual focus: model implementation and comparison

- Implemented a majority-class baseline and Logistic Regression, Random Forest, and Gradient Boosting pipelines using Python and scikit-learn.
- Built a reusable nested cross-validation routine with five outer stratified folds and four inner folds to separate model evaluation from hyperparameter tuning.
- Selected Logistic Regression by mean outer-CV churn F1: 0.631, with recall 0.799 and ROC-AUC 0.846; handed comparison results to the final tuning stage.

JUL 2026 - SEP 2026
Smart Solar Installation & Grid Compliance Platform

GitHub repository

Group project | Contributions: web/mobile interfaces and workflow fixes

- Improved responsive React staff workspaces and navigation, including separate engineer and inventory views.
- Fixed technician check-in and inspection photo-upload handling to preserve recorded inspection values.
- Contributed Flutter mobile interface updates and an Android release workflow for the solar planning platform.

FEB 2026 - APR 2026
EduHub: Student-Tutor LMS Mobile Application

GitHub repository

- Developed a full-stack mobile learning platform using React Native, Node.js, Express.js, and MongoDB.
- Implemented authentication and student-tutor session management workflows.
- Connected responsive mobile interfaces to backend services through RESTful APIs.

FEB 2026 - APR 2026
AgroLink: Web-Based Agriculture Community & Management System

GitHub repository

- Engineered a web-based agriculture platform serving farmer collaboration and community engagement across multiple crop categories.
- Integrated chatbot support to help users access agricultural information.
- Developed crop and disease information features within a React, Node.js, Express.js, and MongoDB application.

JUL 2025 - SEP 2025

SmileCare: Web-Based Dental Management System

GitHub repository

- Developed a clinic management application using Spring Boot and SQL Server for multiple staff roles.
- Implemented role-based authentication and access to staff workflows.
- Delivered 4 core modules: appointment scheduling, patient management, diagnostics, and inventory management.
- Organized relational data for patient records, appointments, and inventory.

JUL 2025 - SEP 2025

Loan Prediction System

GitHub repository

- Built a Python pipeline to predict loan approval using financial and demographic features.
- Compared six classifiers, including Logistic Regression, Random Forest, SVM, and MLP, using accuracy, precision, recall, and F1.
- Applied missing-value handling, categorical encoding, feature scaling, and exploratory data analysis.

EDUCATION

BSC (HONS) INFORMATION TECHNOLOGY - SPECIALIZATION IN ARTIFICIAL INTELLIGENCE
Sri Lanka Institute of Information Technology (SLIIT) | 2024 - Present

G.C.E. Advanced Level - Physical Science Stream
Sri Subhuthi National School | 2021 - 2023
Results: B, C, C

G.C.E O/L
Sri Subhuthi National School | 2019 - 2021

TECHNICAL SKILLS

Programming Languages	Java | Python | JavaScript | TypeScript | Dart | SQL | R
Frontend & Mobile	HTML | CSS | React | React Native | Flutter
Backend	Spring Boot | Node.js | Express.js | REST APIs
Databases	MongoDB | SQL Server
AI & Machine Learning	scikit-learn | Pandas | NumPy | TensorFlow | Preprocessing | Model Evaluation | Nested Cross-Validation | Hyperparameter Tuning
Project Stack Exposure	C# / ASP.NET Core | PostgreSQL | FastAPI | LangGraph
Software Engineering	OOP | Data Structures | Algorithms | SDLC | Database Design
Tools & Platforms	Git | GitHub | Postman | VS Code | IntelliJ IDEA | Google Colab

SOFT SKILLS

Collaborative Team Player | Technical Communication | Analytical Thinking | Cross-functional Adaptability | Deadline-driven Execution

CERTIFICATIONS

- **AI/ML Engineer Certificate - SLIIT**
  Stage 1: https://code.sliit.org/certificates/nddgq8tgtd
  Stage 2: https://code.sliit.org/certificates/cbxmlxyplk
- **Centre for Open & Distance Learning (CODL)** - University of Moratuwa
